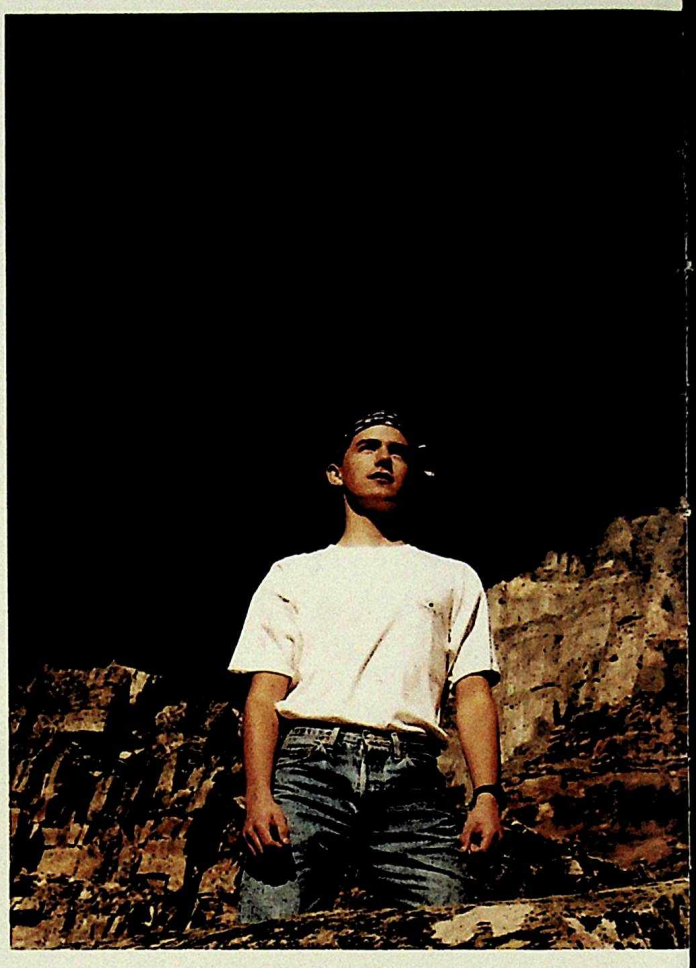
Hiking Trip To Banff and Yoho



The hiking club enjoyed great success this year. Many new members joined and the veterans were back for one more go up the mountain. Unfortunately, because of an early winter, we were only able to get one trip in. But this trip proved to be very worthwhile. We trekked our way to Yoho and Banff National Parks. The weather was beautiful and we were able to see many interesting sights. We were lucky this year. Nobody was lost; they just misplaced themselves and enjoyed an extra 6km walk. Others enjoyed beautiful glaciers and breathtaking waterfalls. Hopefully, we will be able to enjoy another three or four days in the fresh mountain air before heading into summer holidays.

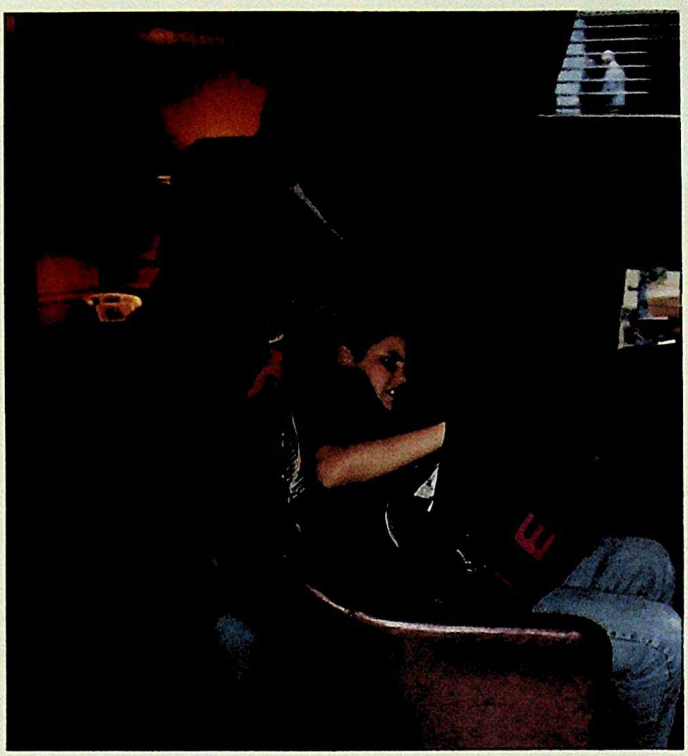
Sauntering Through New York

This year Ms. Desse, Mr. Farrar and twenty-six McNally students spent one week in New York City. The main focus of the trip was a tour of the United Nations and an interview with the director of information of the World Health Organization. In addition, they took a day trip to Washington, D.C. The highlights of the day trip were many. The group visited the Stock Exchange, Lincoln Center town and toured Harlem. Their theater experiences included Cats, The Phantom Of The Opera, Les Miserables and Miss Saigon. To round out the experience, the group also attended a hockey game seeing the New York Rangers, and a baseball game with the New York Yankees.



Some New York trippers hang around in the lobby. Left to right: Blair Tuck, Britta Kristensen, Kathy McLeod, Heather Boyd on the floor.

"Which way next?"

"Say cheese!" Left to right: Pamela Trevor, Christina Battle, and Karen Davies smile for the camera while Kathy Mcleod looks on from behind.

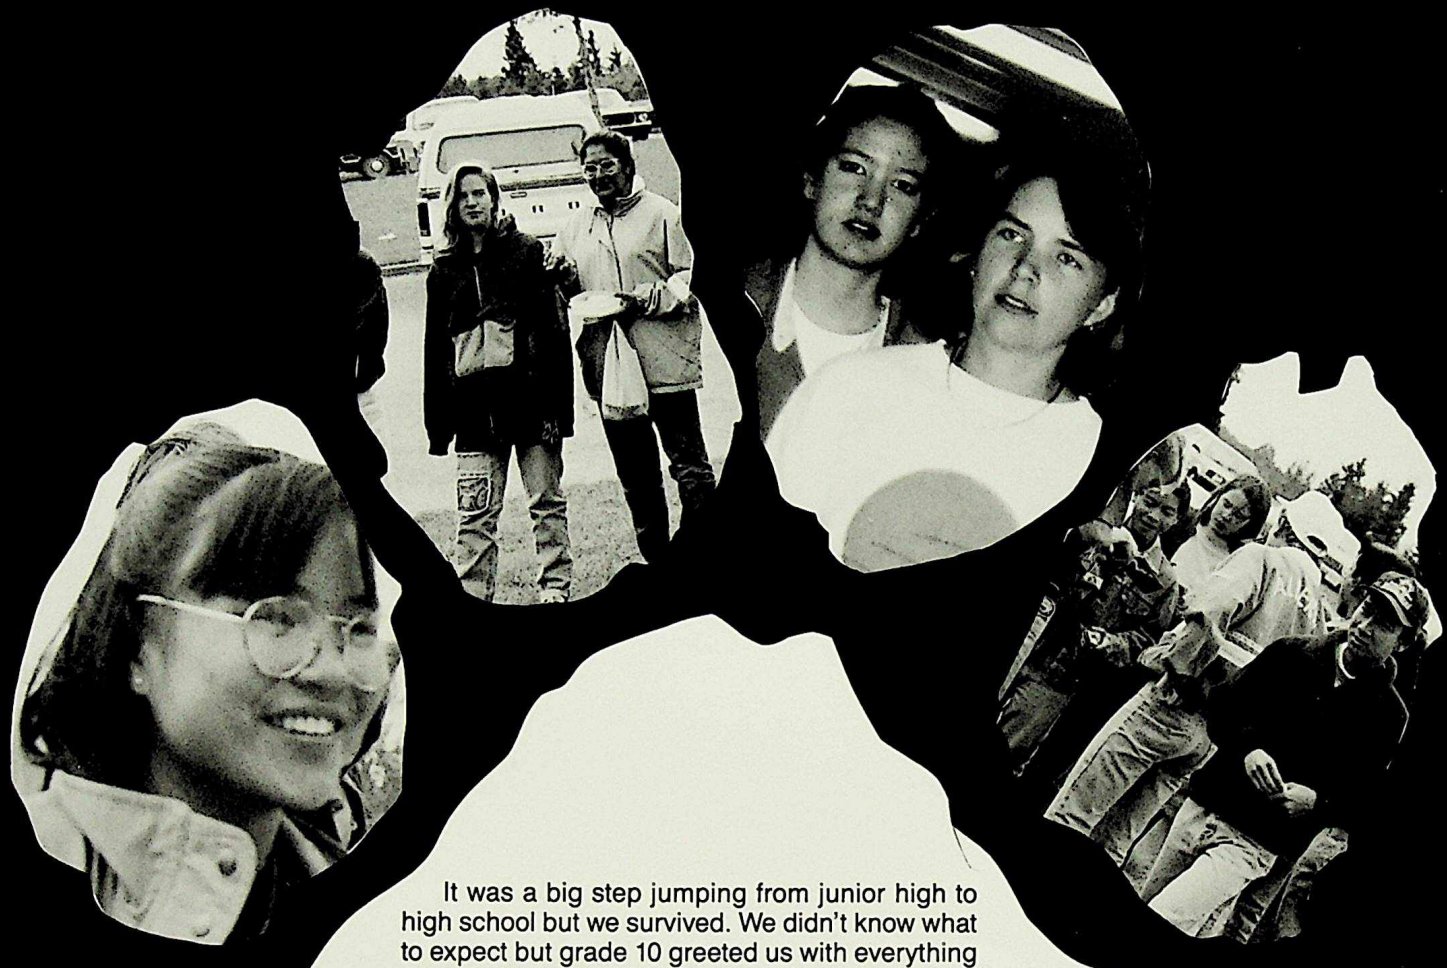
Kittens



It was a big step jumping from junior high to high school but we survived. We didn't know what to expect but grade 10 greeted us with everything we imagined. Thinking back, we remembered our first day, and we laugh at how silly our anxiety and fear were then. Grade 10 was exciting, full of surprises and alot of changes. This year was marvelous but there's still 11 and 12 to come and who knows what the future will hold. We've finished climbing one step on the ladder and when we get to the top, people below watch out!

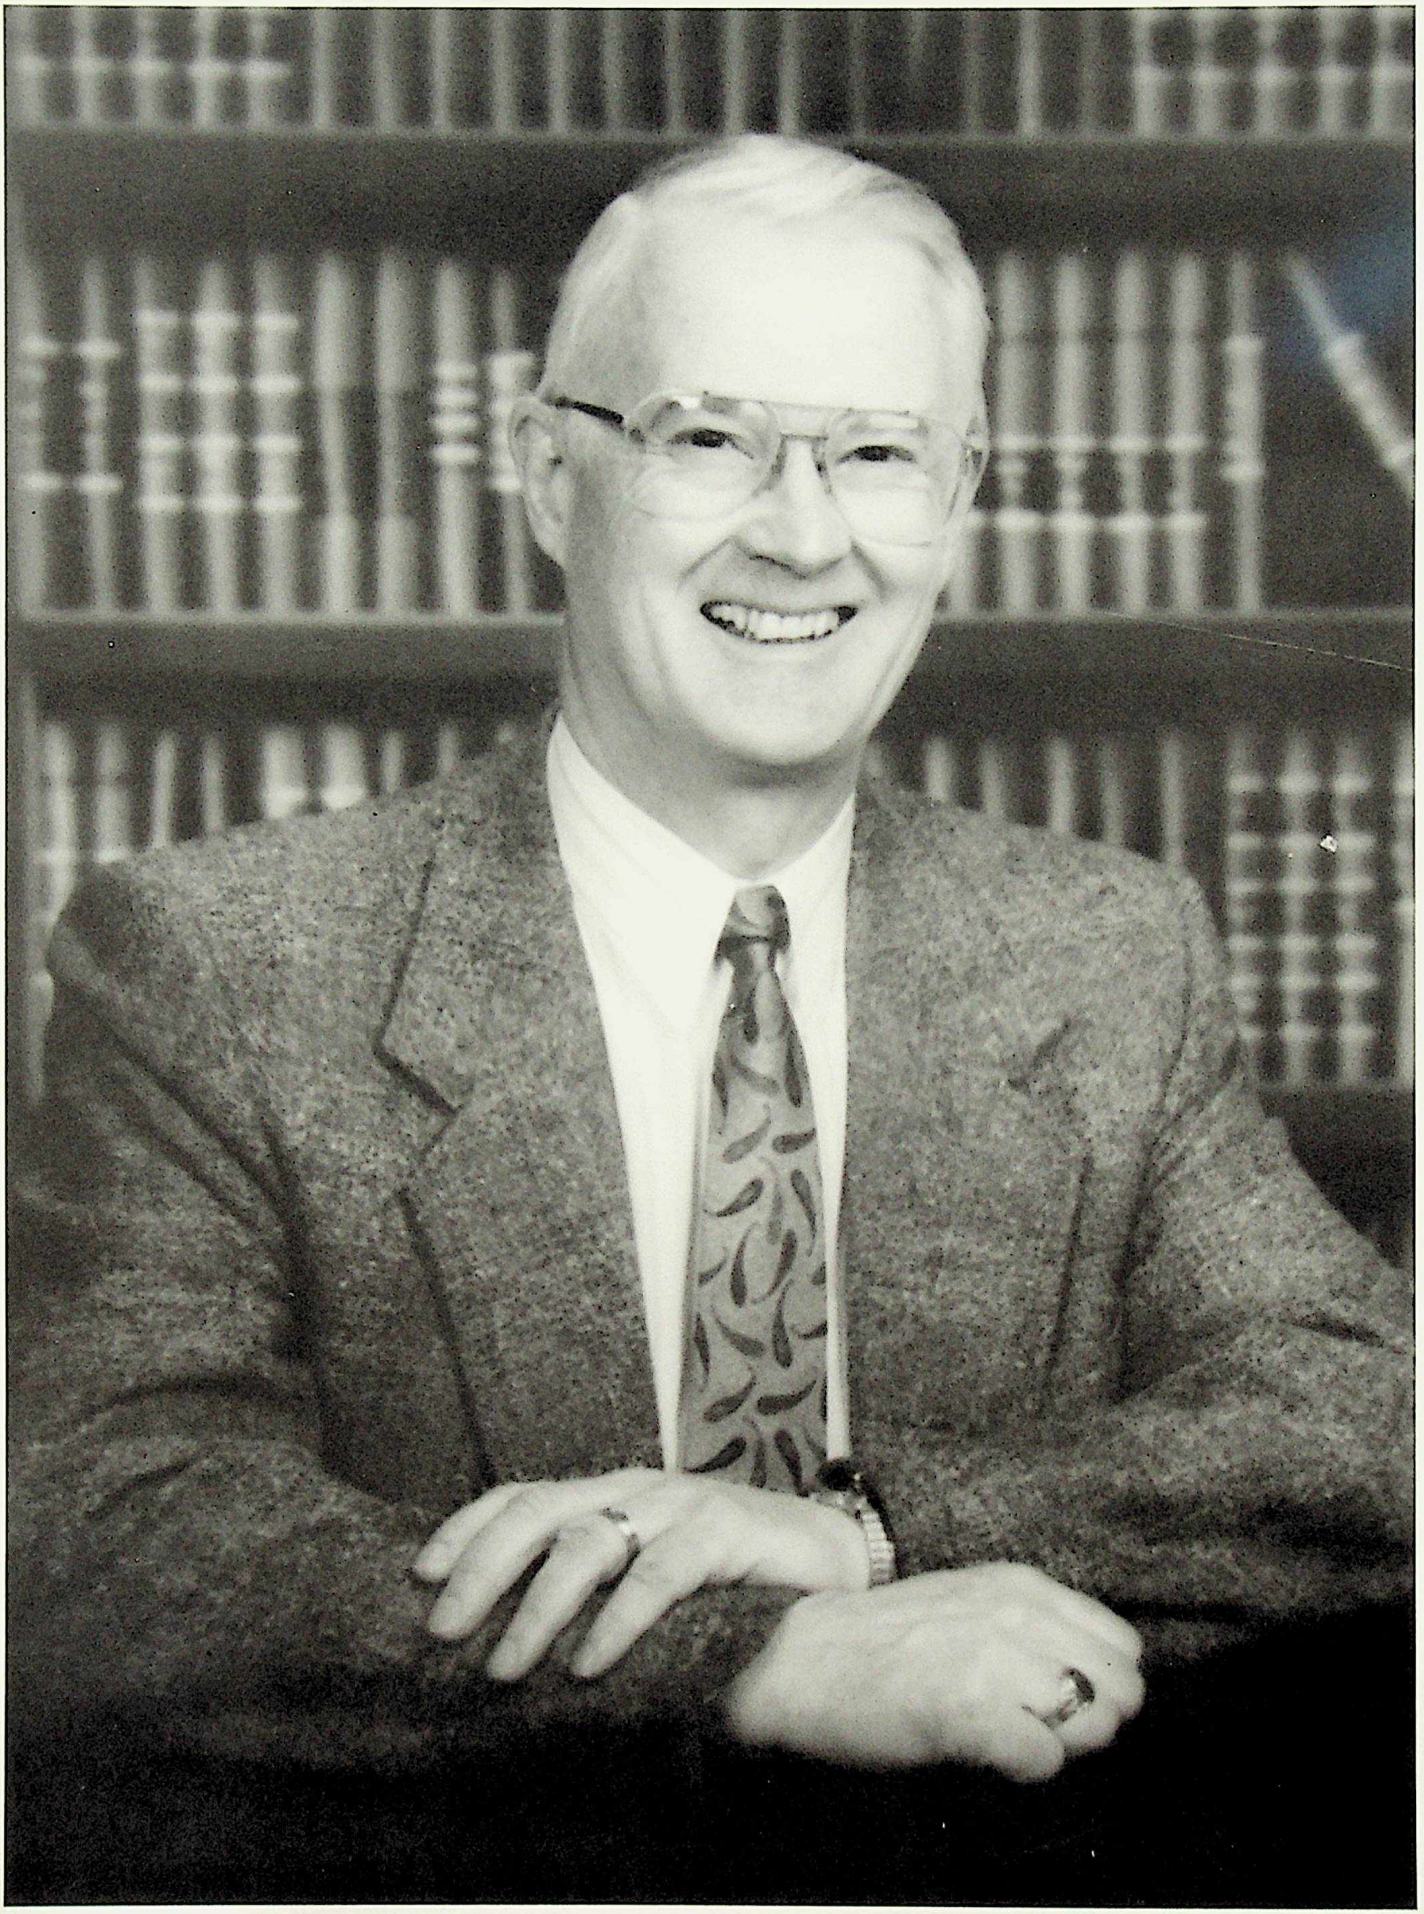
The Keepers

NOTHING BUT THE BEST!!



Mr. Sheppard's Interview

Yearbook – What year did you start teaching?

Mr. Sheppard – I started teaching in 1957 at Victoria Composite.

Yearbook – Why did you start teaching?

Mr. Sheppard – I wanted to study English and History and I wanted to pass my knowledge on to students.

Yearbook – What years did you work at McNally and other schools?

Mr. Sheppard – I worked at Victoria Composite from 1957-1969. Then I transferred to McNally for four years (3 years as an English department head, one year as a second assistant principal). Then I worked at Strathcona for thirteen years as a first assistant principal. Then I was asked if I'd like to return to McNally so I said yes. I was an assistant principal for one and a half years. In September of 1987 I was appointed acting principal for the rest of the year and I've been principal to the present.

Yearbook – Why did you choose McNally?

Mr. Sheppard – McNally is my home school because I've lived in Terrace Heights area for about thirty-two years and two of my three children have graduated from McNally. I was also very impressed with the excellent registration of the school's students and staff.

Yearbook – Did you like McNally?

Mr. Sheppard – I've always enjoyed McNally. I find that the strength of McNally is student-teacher relations. McNally has been a great place to work for the last five years.

Yearbook – What is your most memorable moment(s) at McNally?

Mr. Sheppard – I can not think of one memorable moment but some events come to mind like:

— when I was a Department Head the teachers put on a production of Death of a Salesman for the students.

– the recent open house

– awards nights

– grad banquets and ceremonies

– and winning championship football games, in the cold, by a few points.

Yearbook – Will you miss McNally?

Mr. Sheppard – I will definately miss the students and staff and associations associated with them. I won't miss working after thirty-five years, I'm ready to stop working for a while. Maybe, I'll do something different after a while.

Yearbook – Is being principal difficult?

Mr. Sheppard – Well, it is stressful. For example, I went to this conference on Stress in Education. The main speaker said that principals make 187 decissions a day, small ones like a student asking to use a conference room in office or large ones like where we are going to get money for computers. My pet peeve is having to write letters. As a principal, I am always writing letters. But working with the students and the staff compensates for the stress and unpleasant duties.

Yearbook – When you started at McNally did you have any goals for it? If so did you succeed?

Mr. Sheppard – Yes, I wanted to clean up the school and it was done. I wanted to increase staff in International Baccaloriate Program and have almost completed that plan. Building on the traditions and keeping students in class were other goals which have been successfully completed.

Yearbook – Have you seen many changes in McNally?

Mr. Sheppard – I've seen the population grow and receed; an addition to the original building of the library, home economics, and industrial arts. Yet the student attitude has not changed.

Yearbook – What do you think McNally's future holds?

Mr. Sheppard – I think McNally will continue to get better both academically and athletically. Students seem to attract others like themselves and the teaching staff has its own traditions which will be maintained at their usual high standards.

Mr. Markowski Retires!

Mr. Peter Markowski came to McNally in September of 1968 and retired at the end of January 1992.

In addition to his counselling and teaching duties he contributed as a adviser to the Grad Council and Awards Board, coached badminton, and sponsored the badminton club. He developed the course 2000 program (now emulated by several other district schools), established a peer support program, helped to establish the CHOICES program, and contributed to the planning of our recent lifestyles fair.

Mr. Moarkowski's honest sense of justice, and his humanity will long be remembered by his peers and students who came into contact with him. He was a champion of students, frequently acting as their combudsman. Above all, we shall remember his fine sense of humor. All of us at McNally thank him for his excellent service and wish him well in his retirement.

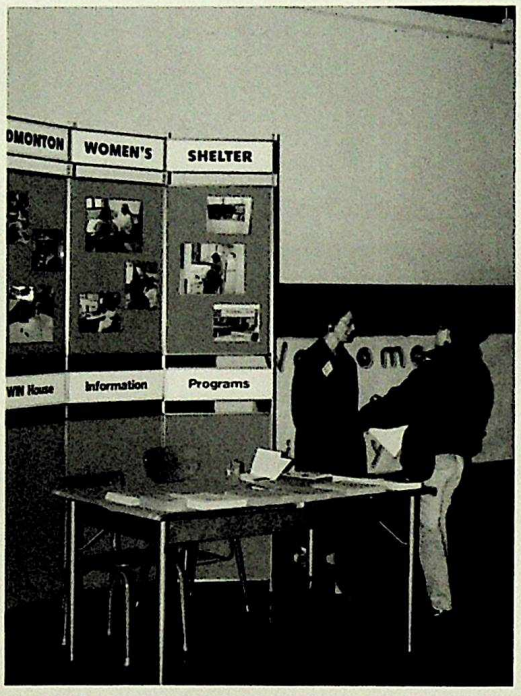
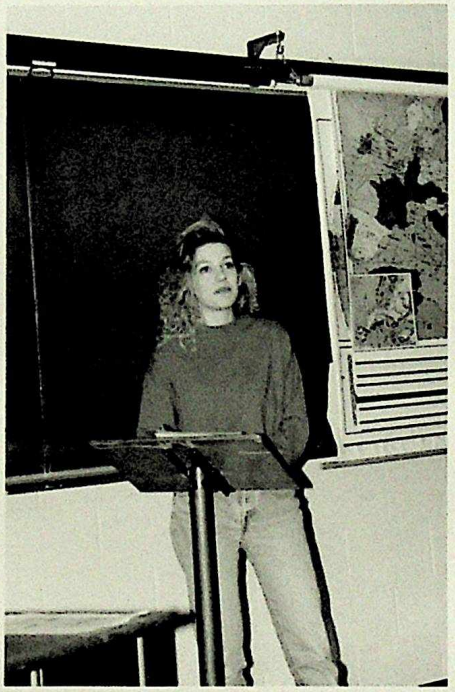
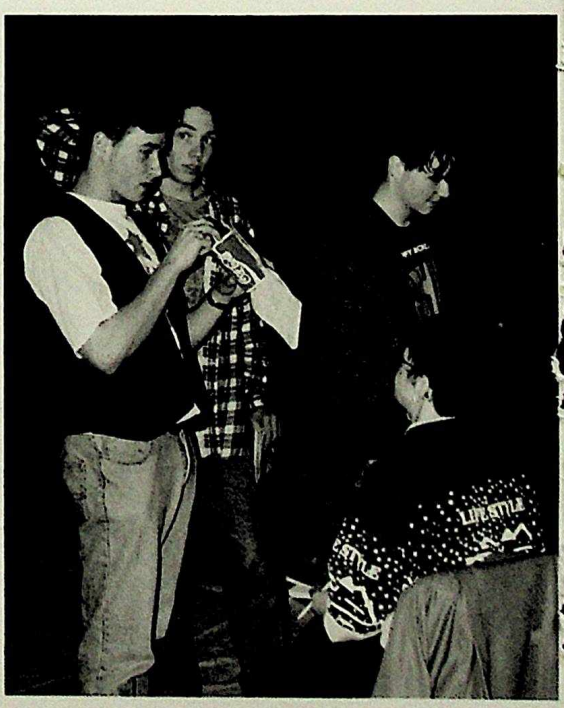
YOUNG LIFE

LIFESTYLES FAIR







On February 27, regular classes were suspended for students to participate in sessions and displays on healthy lifestyle choices. Sessions included: dating & family violence, eating disorders, safety in the workplace, sexually transmitted diseases, multiculturism, mental health, smoking, and birth control. Living well and being well involves learning about yourself, your needs, and what it means to be healthy. The response by the students was quite encouraging.

S. U. held several dances durin the year and "Tiger Pride" was furthered activities throughout the year. Some of the activities were Welcome Week, Dunk Tank, Pumpkin Carving, Talent Show, Pep Rallies, and the popular Dating Game. Several motivational speakers were presented as well during the year.

Grad.
What is Grad?
Who is Grad?
Who is a Grad?
Graduate
Graduating
Graduating Class
"..... To receive a diploma or a degree upon completion of a course of study...."
That's what it means.
Or ..."Of an educational institution, to Grant a diploma or degree upon completion of a course of study...."
Sure.
Not.
What does it mean to Graduate?
What does it mean to be a Grad?
How does it feel?
Of course you're leaving the institution of education that you've grown up with, But what else?
You're moving on, but going higher.
You've spent your whole life preparing for this.
From coloring and cutting out, to quadratic equations and genetic mutations.
Are you ready?
What are you ready for?
No longer just "school", but the "school of life".
You are your own teacher, yet still you are a student.
Everday will be an opportunity to learn and teach yourself things that you could never learn in school, yet things that school will help you learn.
You've spent so many years of your life getting learning experience.
Now use it.
You're leaving a whole lifestyle behind, but a brand-new one is wait ing ahead.
Sorta Sad,
Kinda Scary,
Very Cool.

Best times In 90-91 n London and India. Great times with ZK, Sk, Who's the person now? ZK,thanks for everything that you said to me . There are bad times and good times in life, but we have never lost our great friendship. I hope it never goes away no matter where we are. My favorite sport Karate gives me the right way of life. Karate the greatest sport of mine. MC, CH, WM, GS, you are the best teachers I ever had. My ambition is to become a mast of Karate, and medical x-ray technician or working in a company called Billboard charts. "Life is a very precious thing to lose." "Stay on the right path or else you will not succeed in life." This saying is for all of you who are going to read this yearbook. Thanks to my family, friends, teachers, who gave all the support in my year '92.
